Electric Vehicle Show
Eastern Panhandle Event

September 30, 2023, 9:00-11:00 AM

The Black Dog Coffee Company
8001 Charles Town Road
Shenandoah Junction, WV 25442

Join us in the beautiful eastern panhandle of West Virginia for our fifth annual National Drive Electric Week event! Area electric vehicle (EV) owners will be showing several electric vehicles from various manufacturers. Regardless of the make or model, you can be assured of no or low fuel costs and an all electric grin!

This year’s event will be held at The Black Dog Coffee Company in Shenandoah Junction (between Martinsburg and Charles Town on Route 9). Enjoy your favorite hot or cold coffee beverage, a snack, and check out the EVs!

We will offer electric vehicle rides for those not yet initiated and answer questions from the public on what it’s like to drive an EV, charge an EV, use solar with an EV, etc.
